Your Single Source for Exceptional Quality Water Treatment & Sugar Chemicals

Since the last 10 years, Spa Concepts, Inc., the parent company of Specialty Products of America, has pioneered **innovative** and **sustainable** solutions for **water-intensive industries** and **sugar mills**. Our broad portfolio of specialty chemicals are used in a variety of water treatment applications and sugar production to improve process efficiency, yield and product quality.

SP's market-leading products include **EVEREST™**, **BIORID™**, **BIOSPER™**, **THERMAPRO™**, **RO PRO™**, **TORPEDO™** & **SWEETOL™**. Our Stabilized Super Concentrated Products (SSCP) offer substantial savings in shipping costs due to higher active content.

Everest™
COOLING WATER TREATMENT

- ✓ Scale Control
- ✓ Corrosion Control
- ✓ Iron Control
- ✓ Turbidity Control
- ✓ Efficient Operation
- ✓ Water Savings

BioRID™
BioSPER™
BIOCIDES & BIO-DISPERSANTS

- ✓ Algae Control
- ✓ Bacteria Control
- ✓ Biofilm & Slime Control
- ✓ Lumber Decay Control
- ✓ Odor Control
- ✓ Legionella Control

ThermaPro™
BOILER WATER TREATMENT

- ✓ Corrosion Control
- ✓ Scale Control
- ✓ Oxygen Scavenging
- ✓ Condensate Line Control
- ✓ Carryover Control
- ✓ Improved Steam Quality

Our Vision

Using our knowledge of chemistry, we will develop and market exceptional quality, sustainable specialty chemicals and products while exceeding customer expectations and maintaining the highest ethical standards.

ANTISCALANTS FOR
MEMBRANE SYSTEMS

- ✓ Scale Control
- ✓ Cleaning Frequency Reduced
- ✓ Extended Run Times
- ✓ Compatibility With All Membrane Types

✓ **Improve Profitability**

✓ **Increase Productivity**

✓ **Safeguard Environment**

INDUSTRIAL CLEANING CHEMICALS

- ✓ Tough Scale Removal
- ✓ Eliminate Hazardous Acid Cleaning
- ✓ Protection From Corrosion
- ✓ Sustainable Cleaning Options

SUGAR PROCESS CHEMICALS

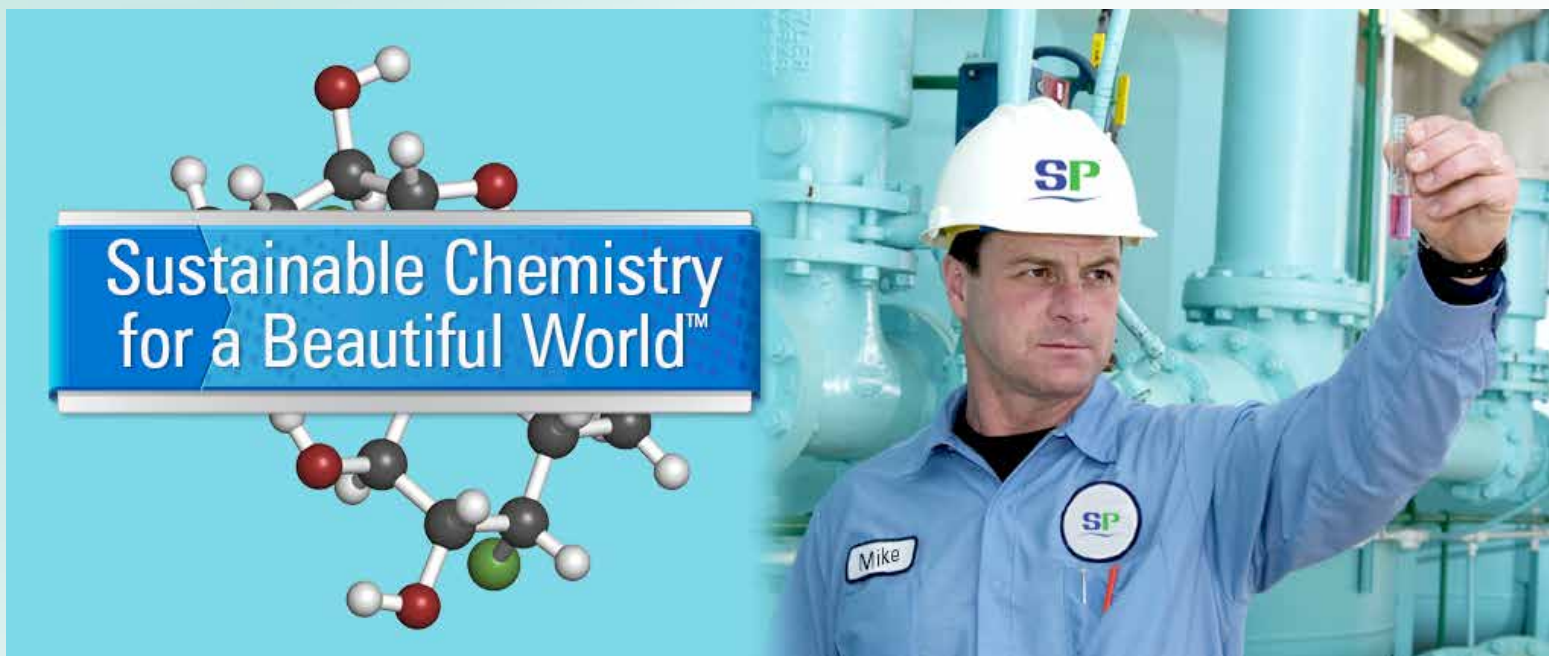

- ✓ Anti-Scalants for Preheaters & Evaporators
- ✓ Viscosity Reducer for Boiling Operations
- ✓ Defoaming Agents
- ✓ Color Coagulants
- ✓ Juice Microbiocides
- ✓ Flocculants for Juice Clarification
- ✓ Flocculants for Syrup Clarification
- ✓ Fire Side Chemicals
- ✓ Evaporator Tube Cleaners
- ✓ Sugar Trace Removers
- ✓ Spray Pond Maintenance Chemicals

Our Services

Those familiar with the Specialty Chemical Industry know that just the chemicals themselves do not solve problems. It is important to survey the site, select the correct chemical program, properly administer the chemicals, and thereafter regularly monitor the usage on-site. In other words, SERVICE is as important, if not more important, than the product itself.

Keeping this in mind, we have created one of the best teams of trained Technical Service Engineers (TSE). Our TSE's are well equipped with state-of-the-art testing equipment for monitoring the chemical programs. In addition, our in-house support staff and analytical group provides specialized testing and application expertise as needed.

EVEREST™, BIORID™, BIOSPER™, THERMAPRO™, TORPEDO™, SWEETOL™ & RO PRO™ are trademarks of Spa Concepts, Inc. or its subsidiaries.

Specialty Products of America makes this information available as an accommodation to its customers and it is intended to be solely a guide in customers' evaluation of the products. Our products must be tested to determine if they are suitable for your intended uses and applications, as well as from the health, safety and environmental standpoint. You must also instruct your employees, agents, contractors, customers or any third party which may be exposed to the products about all applicable precautions. All information and technical assistance is given without warranty or guarantee and is subject to change without notice. You assume full liability and responsibility for compliance with all information and precautions, and with all laws, statutes, ordinances and regulations of any governmental authority applicable to the processing, transportation, delivery, unloading, discharge, storage, handling, sale and use of each product. Nothing herein shall be construed as a recommendation to use any product in conflict with patents covering any material or its use.
