SWEETOL™
SUGAR PROCESS
CHEMICALS

State-Of-The-Art Process Aids

SWEETOL™ products are state-of-the-art process aids that provide one or more functional properties as an emulsifier, dispersant, crystal modifier, threshold inhibitor, defoamer, thickener, and/or lubricant during sugar processing. Brief information on these performance chemicals is provided below. **SWEETOL™** process chemicals conform to the FDA Code of Federal Regulations under Title 21. **BIORID™** biocides are EPA approved.

Products	Application
SWEETOL™ - MS	Anti-scalants for Pre-heaters & Evaporators
SWEETOL™ - AS	Anti-scalants for Pre-heaters & Evaporators
SWEETOL™ - V	Viscosity Reducers/Crystallization Aids for Boiling Operation
SWEETOL™ - F	Defoamers
SWEETOL™ - CO	Decolorizers
BIORID™ - QUAT	Biocide - Quat Based
BIORID™ - DTC	Biocide - Dithiocarbamate Based
SWEETOL™ - JFLOC	Anionic Powder Flocculents for Juice Clarification
SWEETOL™ - SFLOC	Anionic Powder Flocculents for Syrup Clarification
SWEETOL™ - LFLOC	Anionic Powder Flocculents for Liquor Clarification
SWEETOL™ - JCOAG	Coagulants for Enhanced Flocculation

Products	Application
SWEETOL™ - pHB	Spray Pond pH Booster, Stabilizer, Clarifier and Defoamer
SWEETOL™ - SOCIR	Soot & Clinker Removers
SWEETOL™ - SOCIP	Soot & Clinker Preventative
SWEETOL™ - SUR	Sugar Trace Remover for Boilers
SWEETOL™ - EV	Evaporator Tube Cleaners
SWEETOL™ - EVQ	Evaporator Tube Cleaner - Quick Acting
